

Flow chart for the person with cold-like symptoms

If you have the cold - like symptoms such as fever, cough, tiredness, loss of taste or smell >>Do not attend University

According to the instructions by lab manager, supervisor or on your own judgement

See a doctor

Basically see a doctor

>>Report your health condition to your lab manager everyday

Diagnosed as NOT COVID-19

Tested Positive for COVID-19

Unconfirmed COVID-19

Return to Campus after recovery ※1

Receive Medical Treatment under **instructions by public health center.** After complete recovery, submit your medical certificate to your faculty

Stay home for **8days** after onset of symptoms plus **3days without symptoms**

Submit your health observation report

Lab manager issues a notification of 'termination of self-isolation at home' and submits it with the health observation report to school doctor

Judgement of the termination of attendance suspension by school doctor※2

Return to Campus

※1 : In the case of flu or other diseases, you must follow the instructions of the doctor.

※2 : In the case of a faculty member, it should be done by industrial physician instead of school doctor.

In the case of an administration staff, it should be done by senior member instead of lab manager or supervisor.
